CDE 2018-2019 Document – The Modernization Plan of EEB1

Document Reference: 2019-2-3-PROJECTS

Object: The Modernization Plan of EEB1

Author: Laszlo Molnarfi, CdE President 2018-2019

Date: 2019-2-3

To whom it may concern,

It is February and the following months are crucial. Our plans for the quick modernization of EEB1 and of the CdE as follows.

Firstly, we have already achieved the following:

- The creation of our official website, bissc.net for integrity and updates.
- Wi-Fi and SMS access for students, and the unblocking of Office365 on the school Wi-Fi.
- The installation of two CdE request boxes in the S123 and S4567 Cafeterias for better communication.
- The launch of our advice group for the legal defense of students.
- Livestreaming of the Science Festival, promotion of the Science Festival via a new poster and an article on EURSCMAG.
- The National Sweater Day.
- The organization of the first S123 Disco with Deliciosos' Chicken selling and live music.
- The CdE transparency project (ongoing) which comprises of democratic representation of students (ex. we successfully moved the History2 exam to after the prebacs with the help of the parents), constant updates, financial and project transparency.

The following is what we will achieve:

- Board games for the S4567, S123 Cafeteria and Etude.
- The poster wall for the CdE in the Aristotle  inform students about our work.
- The reform of the CdE to acquire integrity as an organization through taking control of our finances (moving to the APEEE and CdE safe) and through a new statute. Our aim will be to become an integral organization through implementing ourselves into the everyday collective

operating of our school. Decrees and guides to be written for future CdEs on things such as technical procedures (ex. livestreaming, CdE website, bank card MPOS terminal, poster printing, website credentials) and certain procedures (ex. written document template, record keeping, polls, transparency, beginning of the year and middle of the year and end of year reports, CdE continuity, role of class representatives, official school email).

- S4567 Cafeteria Renovations with spatial reorganization (around 40 seats gained), the Billiard Table, Mobile Signal Booster.
- Two sofas in the S4567 Library and lending a helping hand with a possible reorganization to gain more space.
- Four sofas in the Etude (armchairs swapped with sofas from S4567 Cafeteria).
- The architectural redesign of the S123 Library with 105 new chairs, tables and five beanbags.
- New artworks in the S123 Cafeteria.
- At least one of the following projects with the Canteen/Cafeteria Committee; bigger and more eco-friendly paper cups, a new coffee machine, chip-based payments and more dietary options for the foods.
- Proposal to install more benches around the Da Vinci.
- The absences list on the screens around school and the big screen in the S4567 Cafeteria.
- The installation of the chess figures back onto the Da Vinci chessboard terrace.
- The Graffiti Wall.
- The covering of both of the upper football fields with fake grass (DomoSports).
- Proposal and vote on no classes during the b-test period and the opening up of the toilettes in Aristotle (at the Conseil D'Education), and to convince the school to draft up a new drugs policy. Proposal to allow students to go out before 4th period at the SAC.
- The Radio project with a podcast-type like emission in collaboration with students.
- A successful hoodie sale both online and in-person, accepting cash and bancontact (1100 hoodies).
- The EEB1 application with a function that shows students whether a course will run the next morning or not and many more functions (ex. schedule, notes, chat, links, news).
- The Valentine's Day Sale on the 13th of February.
- BACMAN poster (<http://markspolakovs.me/BACMAN/>) by the CdE before the Bacculaureate period.
- The CdE Disco on the 30th of April (with proper sound mixing and innovative new song request system) and the Fashion Show/Talent Show sale on the 9th/10th of May (and livestreaming with DVDs, in addition to a student vote of the best presentation with a prize).
- Science Festival DVD by the end of the year.
- Humanities Festival in 2020.
- Agreement with the Sports Tournament Organizers to organize an Inter-School Sports Tournament.
- And after all of this, the ensuring of the fact that the next CdE has an amount of money in the CdE account and safe with which they can comfortably work.

This document repeals and replaces our original election program (CdE 2018-2019) and takes effect immediately. However, in our end-of-year report to the student constituency, our original program must

be used when presenting our successes and failures. It is strongly suggested that future CdEs follow and complete this plan.

Signed,
